- Individual Cost:** JCC Members £12, Non-members £16
- Corporate Tables** Corporate Member Tables of 10/12 available on request
- CPD Qualifying** A Certificate of attendance can be provided on request

Dear Member,

I am delighted to be able to invite you to a presentation sponsored by Ramsey Crookall, one of the islands leading stockbrokers, celebrating their 65th year in business. On behalf of the Junior Chamber I would like to congratulate them on this milestone and thank them for sponsoring this event.

Back in 2002, Donald Rumsfeld said: ‘There are known knowns; there are things we know we know. We also know there are known unknowns; that is to say we know there are some things we do not know. But there are also unknown unknowns – the ones we don't know we don't know’.

Although he was US Defence Secretary at the time and his quote related to Iraq, Mr Rumsfeld could well have been talking about the outlook for the World Economy and Global financial markets!

Following on from last year’s ‘Illusion of Recovery’ presentation to the JCC, Stuart Cowan and Peter Robertson from Ramsey Crookall’s Investment team will offer a view on the global economy for 2012. The main assets that will be covered are bonds, equities, gold and other commodities, their prospects for next year and in the context of the greatest ‘unknown’: will Central Banks succeed in their efforts to stimulate recovery and engineer a return to stable economic growth, or will the deflationary forces stalking the Western World lead to a 1930’ style depression?

Stuart Cowan FCSI is a Director of Ramsey Crookall who has spent his career working in stock broking and Investment Management. Peter Robertson FCSI is a Senior Investment Manager at Ramsey Crookall, with twenty years industry experience.

I look forward to meeting you on the evening and advise you to reserve your places as soon as possible in view of the quality of the speaker and the topic being discussed.

Cameron Halsall, Chairman
